

PROFESSIONAL PEST MANAGEMENT

SECURECHOICE COCKROACH ASSURANCE PROGRAM

Syngenta cockroach products provide fast control of all prevailing cockroach species. The SecureChoiceSM Cockroach Assurance Program pairs the highly attractive VanectoTM Cockroach gel bait, Advion[®] Trio cockroach gel bait and Advion Cockroach gel bait with Advion WDG insecticide and Optigard[®] Flex liquid insecticide, our versatile, non-pyrethroid, non-repellent residual sprays.

As part of this program, pest management professionals (PMPs) can follow the SecureChoice Cockroach Integrated Pest Management (IPM) Guide to control cockroach populations around customers' homes, properties, food-handling facilities and more.

Assurance Offer: By following the SecureChoice Cockroach IPM Guide, cockroach infestations will be reduced by at least 90% during the first four visits over a 60-day period. If adequate reduction is not achieved, Syngenta will provide the appropriate quantity of Syngenta products to cover the retreatment.

To qualify for the SecureChoice Cockroach Assurance Program, treatments must be applied according to the SecureChoice Cockroach IPM Guide.

Contact your Syngenta territory manager or Syngenta authorized distributor/retailer with questions.

An IPM Approach to Cockroach Management

The SecureChoice Cockroach Assurance Program combines proven products and best practices for complete control of cockroach populations, which are informed by laboratory and field data from university professors within entomology departments. By following the steps below, you can successfully control cockroach infestations. For complete details, refer to the **SecureChoice Cockroach IPM Guide**.

Program Product Rotations

To benefit from the SecureChoice Cockroach Assurance Program, follow the application rates per account and rotate between treatment cycles every three months or 90 days. Alternating products in your rotations is essential to prevent cockroaches from developing bait aversion or resistance. The non-repellent nature of Advion WDG and Optigard Flex means they can be used with other recommended cockroach gel baits with no disruption to bait efficacy. Always consult the product label for complete use and application information.

Note: For heavy cockroach infestations, add Demand® CS insecticide, Demon® Max insecticide and/or Archer® insect growth regulator to your rotation as needed. Advion MicroFlow insect bait complements gel baits and sprayables on cleanout and maintenance accounts. Advion Evolution cockroach gel bait and Optigard Cockroach gel bait can also serve as effective rotation alternatives. Rotate modes of action every 90 days to help prevent resistance.

FOR LIFE UNINTERRUPTED™

@SyngentaPest

Program Terms and Conditions

- ▶ PMP will follow all label guidelines, recommendations, use rates and treatment protocols as defined in the SecureChoice Cockroach Assurance Program.
- ▶ PMP will review all program materials with a Syngenta representative or authorized distributor representative prior to PMP participation in the SecureChoice Cockroach Assurance Program.
- ▶ PMP will agree to provide the following information in the event that a retreatment or retreatments are necessary:
 - ▷ The amount of grams and/or ounces of product per treatment, per account
 - ▷ The approximate area treated (square footage) per treatment, per account
- ▶ PMP will agree to work closely with Syngenta territory manager to perform the requirements in the SecureChoice Cockroach Assurance Program during the Program Period.
- ▶ Some homes or properties may not be ideal candidates for receiving cockroach treatments. Please consider this when discussing cockroach treatment options with customers in this situation.
- ▶ If PMP receives a complaint from an account that requires a retreatment within this SecureChoice Cockroach Assurance Program, despite following all label instructions and conditions within this SecureChoice Cockroach Assurance Program, **PMP must contact a Syngenta territory manager within seven days of the account being retreated.**
- ▶ If Syngenta determines that the retreatment(s) is/are justified, Syngenta will provide the appropriate quantity of Syngenta products to cover the retreatment(s) of the account as needed. Syngenta will not pay for the application or other costs associated with retreatment(s).
- ▶ Syngenta reserves the right to investigate each product performance complaint, to verify all purchases or to modify or discontinue this SecureChoice Cockroach Assurance Program at any time.
